REQUEST FOR PROPOSALS

RFP# 06 - 2013-0010

Addendum #1

Issue Date: June 17, 2013

In response to Vendor questions:

On p. 16 of our RFP as part of a description of how cost proposals are to be evaluated:

"Offerors should also provide an estimate of initial costs incurred to enter into the pending litigation on behalf of the HIX."

1) The "pending litigation" does not appear to be mentioned or described elsewhere in the RFP. Can you please describe the "pending litigation" with enough detail to permit potential offerors to estimate costs for representation, and indicate what the HIX means by "initial costs incurred to enter," for example, is this a request for estimated legal costs over certain number of months or through a particular phase of the lawsuit?

There is no pending HIX litigation. This section should be ignored.

2) Also, please indicate if the HIX has been in communication with any potential offerors regarding legal representation for the "pending litigation" and if so, what effect that will have on the procurement.

There has been no communication with any potential offerors regarding pending litigation.
