Gallup Enrollment Center

The enrollment is a unique place to get services. It was thorough and quick. The enrollment counselor was helpful and effective cultural approach. Obtaining a health plan was explain to us in our own native language. We were welcome from the time we came through the door to the time we left. We need more of these kinds of counselor. We feel good about ourselves and now have a sense of security.

I am satisfied with the beWellnm walk in service I got today. I feel that I am taken out of being depressed about by health and now I can go get my urgent health care. I did not know about the center located here close to us. I think this center is serving the people of all ages and will truly benefit from it.
